Sounds reasonable. Is CO and the county on board?

We weren't discontinuing but thought to decrease to twice per week ( we have 16 days showing post-pulse concentrations equivalent to pre-pulse levels). This has caused significant discussion (sorry) and we are meeting with HQ (Dana Tulis) and the environmental units for each region to discuss this topic in 5 minutes.

Steve - Carl called today and was concerned we/R8 were going to discontinue water and sediment sampling before we had worked to establish a longer term plan (coordinated with the other regions , states and locals). Where are we on all of the sampling in light of this man development?

**Subject:** Draft Straw Man Monitoring Plan GKM

Hi All,

I have received no comments on the attached draft document. So Martin, I believe it is ready for your input if you have time. We would like to send this out to HQ and the other regions today to get things moving. Any objections? Please let me or Bert know. I think we'd like to send the draft around this afternoon.

Thanks,

Sandie
